

Led Strip **Extra Professional Series**

FU-BLF-2835-2165-(W)X

White strip with color change
with 112 SMD2835 LEDs per meter

Warm white  Cold white

Features

High brightness SMD 2835 LEDs compliant with LM80.
Cutttable by groups to facilitate use.
Uniform shine along entire length.
Constant current design extends useful life.
Power at 24VDC, safe and suitable for universal use.
International certifications available.

Applications

Decoration of shop windows and hotels.
Decoration of ceilings, furniture, automobiles.
Flexible for long distance connections, especially suitable for special lighting requirements.

* LM80 CERTIFIED:
LED LIFESPAN tested under LM80;
Expected LIFETIME of 30,000h.

FU-BLF-2835-2165-(W)X

Professional series

White strip with tonality change

- 112 Led/m
- 22 W/m
- 24V
- Warranty up to 7 Years
- ≤2100 lm/m
- ≤123 lm/w
- LED SMD 2835
- MacAdam 3 level SDCM BIN1
- standard CRI >83
- optional CRI >97

White color temperature range

- 10 Max. meters in series (one side powered)
- VHB 3M
- driver NOT included
- 120°
- 5m
- 17,86mm
- 10,66cm
- 30.000 h
- 20 Max. meters in series (two side powered)
- ADFs PCB
- Do not blend
- ESD
- Dimmable
- HIGH POWER Alu profile required
- Working 50°C -20°C
- Storage 60°C -40°C

Features

Part number	CCT / wavelength	Luminous intensity per m / flux	Efficiency lm / W	Energy efficiency	Ordinary strip	Strip with waterproof part number "W" suffix
FU-BLF-2835-2165-(W)X	±2100~6500k	±1350lm/m/canal	±123	E	 5000mm 1,25mm 10mm	 5000mm 4mm 12mm No color temperature deviation.

Notes

Waterproof led strips covered by silicone material use to suffer an unavoidable CCT value modification owing to optical effect caused when light beam passes through material.
Initial CCT values are increased several hundreds or thousands of °K. This increasing is much higher in coldest white CCTs.
New FULLWAT molded silicone system avoids this effect and our waterproof led strips are CCT rated at original value without modification.
Please, contact with your local sales office to get more details.

- 25m length models are available.
- 50m length models are available under request. Contact to our Sales Department.

Specific parameters

Reference	Waterproof materials	Size (mm)	Connections	Modo de fijación	Grado IP
FU-BLF-2835-2165-X	Non waterproof	10x1,25	Silicone wire red, white and yellow	Adhesive 3M VHB	IP20
FU-BLF-2835-2165-WX	silicone tube + silicone gel	12x4		clips + screws	IP67

NON WATERPROOF MODEL

Features

- IP20 easier assembling 3M VHB.
- Small size, light weight, flexible.

Adhesive 3M VHB

■ PACKAGING

■ NOTES

1. Choose the product with the appropriate IP rating for your application environment.
2. Do not damage the flexible PCB during installation.
3. Choose a suitable power supply for the strip.
4. Disconnect the power supply during installation and make sure the wiring is correct before reconnecting the power.
5. Connection length must not be greater than maximum length. Exceeding maximum length may cause overcharging, uneven brightness, or other damage.
6. Do not stare at the LEDs for a long time, it may cause damage to your eyes.
7. Installation, maintenance and disassembly work must be carried out by qualified personnel.
